817.614.5960

Brooklyn, NY

## EXPERIENCE

### Standard User

Front End Developer  
Denton, Texas  
May 2021 to present

Lead the front end development of a social media application using React Native, implementing various user interfaces and functionality across the entire app. Worked closely with back end developers to create a fully functional platform.

### Crestview Printing

Graphic Designer  
Saginaw, Texas  
August 2015 to July 2017

Designed advertisements, print material, and apparel for local businesses, schools, and organizations in the Fort Worth, Texas area. Utilized the adobe creative suite and several large format printers and screen printing equipment.

### I Love Sushi

Server  
Denton, Texas  
December 2019 to June 2020

Worked in a fast paced restaurant, often one of two servers, managing multiple tasks around the business at once, while also providing an excellent customer service experience. I learned to solve problems on my feet (literally) and to always be ready for the next one.

### Personal Work

Art/Freelance Design  
Brooklyn, New York  
August 2016 to Present

Creating and selling the original artwork, which involves maintaining a personal website, marketing myself through social media to potential clients, as well as processing and shipping prints of my work and other products.

## EDUCATION
